Canadian Society for Civil Engineering

## Notice of Upcoming CSCE Event

### IntElliDeck and F360 Forming Systems

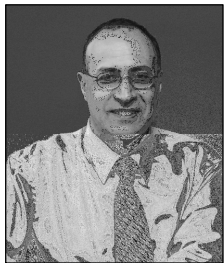

**SPEAKER:** George Charitou, P.Eng., Chief Engineer, EllisDon Corporation

**DATE:** Thursday, February 16, 2012

**TIME:** 6:00 – 7:00 p.m. Registration, light meal, networking  
7:00 – 8:00 p.m. Presentation

**LOCATION:** University of Toronto, Sanford Fleming Building, 10 King's  
College Road Room: SF1105

**COST:** CSCE Members: \$10 CSCE Student Members: \$5  
Non-CSCE Members: \$25 Non-member Students: \$15

As Chief Engineer, George Charitou heads up EllisDon's Engineering Department as part of EllisDon's Engineering, Research & Development and Quality Assurance team. His engineering research and design prowess has garnered him accolades for excellence in innovation. When a solution is not conventionally available, George and his team engineer a solution. George's unique **IntElliDeck** table forming system for suspended concrete slab work, developed in partnership with PERI Formwork Systems Inc., is one such innovative solution. With automatic deflection compensation, no re-shoring, and fast simple cycling, The IntElliDeck system has brought unheard of productivity and cost reductions. **F360** is another novel formwork system developed by George and his team. This system, fabricated from aluminum components and having the highest capacity to weight ratio in its class, is extremely versatile and can be used on virtually any concrete project for both vertical and horizontal applications. George's presentation will cover both of these exciting new advancements in concrete forming technology.

**Tickets are available online or at the door. However seating is limited. Be sure to reserve a seat by February 15, 2012 so you don't miss out on this special event!**
